Risk Assessment

Compliance reports help highlight where data is missing in claims that could leave you open to errors or violations. Our Closed File Review process helps tie up loose ends and correct mistakes before problems arise.

Standards & Controls

ClaimWizard's customizable workflows keep every member of your team on task and on time with every claim. Continuing education, license, and bond tracking keep you on top of state compliance and licensing requirement.

Monitoring, Auditing, Remediation

ClaimWizard provides you with the features to ensure accuracy and compliance in every step of your claim process. More than the ability for your company to be proactive, this also includes the defensive tools you need during discovery and auditing.

ClaimWizard can help provide a wide-angle, bird's-eye view of your company and compliance issues; seeing broad trends and identifying new risks before they become issues.

Our tools help you effectively reduce risks, improve decision-making, enhance company performance, boost profitability, and maintain a positive reputation.

If keeping your public adjusting company compliant is important to you, be sure to chat with ClaimWizard today.
