### Work SMARTER

ClaimWizard has built unique and intelligent workflow management features to provide you with oversight of your company and staff; ensuring accuracy, timeliness, and compliance.

### Be PROACTIVE

ClaimWizard's pioneering approach of Proactive Claim Management™ provides you with tools to identify issues before they become headaches.

### Be PROFITABLE

ClaimWizard was designed to help organizations of all sizes reduce their operating costs. From estimate and settlement tracking, to billing and commission calculations, to profitability reports and revenue projections; we help you be in the business of being profitable - not just adjusting claims.

Using ClaimWizard we are better organized, we have better documentation on claims, better sharing, more efficient across the board and we are working on detailing every step in our process to give our adjusters a simple “follow the recipe” chart to achieve consistent results...

There is no way we could recover millions of dollars for our clients every year without ClaimWizard.
